About Me

I am a software developer that enjoys creating software that in some way benefits people. My greatest strength is my aptitude for quick learning, which aids in my desire to study cutting-edge technologies that are pertinent to my line of work. I enjoy finding solutions to issues that can improve the user experience. In my spare time, I engage as an artist.

Resume Summary

Full Stack Developer with 1+ years of hands-on experience designing, developing, and implementing applications and solutions, and setting up the deployment environment and CI/CD pipeline and other necessary infrastructure using a range of technologies and programming languages. Seeking to leverage broad development experience and hands-on technical expertise in a challenging role as a Full-stack Developer/ DevOps Engineer.
